

Ben Bledsoe, Without You

WITHOUT YOU

Simple but true
I'm in love with you
It's you I hear, the voice I've been talking to
Lonely but true
Inside we always knew
You see me in your dreams and I see you too

Sittin' here just waiting all alone
I'm holding on to what we have and never letting go

I've been living this life all by myself
No memories or stories to tell
'Cause another day's just another day
Without you
I can't wait for each and every day
Just a simple sign to see your face
I can't stand here all alone when I'm
Without you

I dream of you
It's all I seem to do
I'm holding on, I know you're just out of view
These feelings inside
Are eating me alive
A one way street I've chosen because of you

Sittin' here just waiting all alone
I'm holding on to what we have and never letting go

I've been living this life all by myself
No memories or stories to tell
'Cause another day's just another day
Without you
I can't wait for each and every day
Just a simple sign to see your face
I can't stand here all alone when I'm
Without you

SOLO:

I've been living this life all by myself
No memories or stories to tell
'Cause another day's just another day
Without you
I can't wait for each and every day
Just a simple sign to see your face
I can't stand here all alone when I'm
Without you

I've been living on
Without you

I'm just living on
Without you

But what's living on
Without you?
