

# Ben Folds Five, Just Pretend

While I held you with our undry eyes  
Happy years pass by  
It's OK to cry  
After all  
In the end  
Just pretend  
Well it's sticks and stones  
and broken homes  
that taught us how to smile  
After all  
In the end  
Just pretend  
There's a name that plays in my head  
like a song  
all day long  
she's with me every day  
After all  
In the end  
Just pretend  
Everyone needs  
Everyone needs  
Everyone needs  
If the sun can't shine  
you'll be just fine  
look into your mind  
where you're free  
After all  
In the end  
Just pretend  
Cause we heard each other  
once before  
lets not do that again  
After all  
In the end  
Just pretend  
And a voice so familiar  
wakes me up in the middle  
if she thinks I'm having a bad dream  
After all  
In the end  
Just pretend  
Everyone needs  
Everyone needs  
Everyone needs  
After all  
It's the end
