

# Ben Harper, Alone

This empty room it fills my mind  
Freedom it leaves me confined  
Every single bone has cracked  
But in this life, you can't turn back

I don't want to live  
I don't want to live here alone, alone, alone, alone

As these words part with my tongue  
I question why they're even sung  
I promise but I lied  
I don't even know myself inside

I don't want to be  
I don't want to be here alone, alone, alone, alone

Today and tomorrow have become one  
Every single thing has become none  
Human nature is a beast  
What I've done the most, to show i have the least

Please don't leave me here  
Please don't leave me here  
Don't you leave me alone, alone, alone, alone
