

# Ben Harper, Don't Take That Attitude To Your Grave

You say what's mine is mine  
And what's yours is mine too  
Now you've got more than you can spend  
But all of the money in the whole wide world  
Is not gonna help you in the end

Now while there's still time to be saved  
Don't take that attitude to your grave  
It might be too late for you I'm afraid  
So don't take that attitude to your Grave  
Don't you take it there

I hear helicopters over my house everyday  
Shining their lights and flying low  
Treat a child like a criminal from the day he is born  
And you're gonna reap just what you sew

Now while there's still time to be saved  
Don't take that attitude to your grave  
Might be too late for you I'm afraid  
Now don't take that attitude to your grave  
Don't you take it there

So you can move your court case way across town  
You can move it across the whole wide globe  
But it ain't gonna help your court case up in the sky  
When you go to put on your white robe

Now while there's still time to be saved  
Don't take that attitude to your grave  
Might be too late for you I'm afraid  
Don't you, they don't want it.  
Don't you take it there.

And you dare the children stay off of drugs  
I dare to stop letting them in  
And how dare you point your finger at a gang out on the street  
While its you who is committing the sin

Now while there's still time to be saved  
Don't take that attitude to your grave  
Might be too late for you I'm afraid  
Don't take that attitude to your grave  
Don't you take it there  
They don't it want it there  
You know your mother taught you better  
Don't take that attitude to your grave
