

# Ben Harper, Temporary Remedy

i killed a snake with a bible  
i was living a johnny cash song  
i'm afraid for this i may be liable  
so its best i be moving - moving along

just a temporary remedy  
running through my  
running through my veins

summer lasted through november  
funny when its gone you miss cold  
words can be spoken for a lifetime  
we can never hear until we're told

just a temporary remedy  
running through my  
running through my veins

they tell me nothing is perfect  
then tell me why is it a word  
yesterday's news is tomorrow's blues  
now they're perfectly blurred

just a temporary remedy  
running through  
running through my veins  
just a temporary remedy  
running through  
running through my veins
