

# Ben Harper, Welcome To The Cruel World

Welcome to the cruel world  
Hope you find your way  
Welcome to the cruel world  
Hope you find your way  
It's a cruel world  
Try to enjoy your stay

Yes it is a cruel world  
When you're tryin' to get by  
It's a cruel world  
When you've seen the look in their eye  
Makes life hard living  
But I'm so scared to die

Welcome to the cruel world  
Welcome  
Welcome

Don't know how  
We've lasted here so long  
There must be more good than bad  
Or we'd already be gone  
And if you get up to heaven  
Before I do  
I'm gonna tell ya  
It's gonna be cruel there too

You can't hide from this cruel world  
Cause there is no place to run  
You can't hide from the cruel world  
There just is no place to run  
It's been cruel from the beginning  
It will be cruel when we're done

So when I'm gone  
I will gladly say goodbye  
When I am gone  
I will gladly say goodbye  
And if you want to feel me  
Put your hands up to the sky

Welcome to the cruel world  
Welcome  
Welcome  
Hope you find your way  
Try to enjoy your stay
