

# Ben Jelen, Give It All Away (Live)

Swinging round in circles, looking for the way  
Fleeing from the time when she wanted me to stay  
My world is swirling round, this time I know it well  
Our love is coming down again  
Then I realize inside me, I've had myself all wrong  
This time I know for certain, I've never been that strong  
The moment you remember, those times you stop to think  
Our love will come undone again  
Demons sitting at my side  
An Angel's come to ask me why  
Slowly I give up inside to say  
To feel alive, I'd give it all away  
I'd give it all away  
I'd give it all away  
Another year, another week  
Another set of summer sheets  
Another, well we should hang out again soon  
Another drink, another kiss  
Demons sitting at my side  
Another Angel asks me why  
And it doesn't take too much to say  
To feel alive, I'd give it all away  
I'd give it all away  
And I'd give it all away  
Again and again and again  
I'd give it all away  
Again she's sitting at my side  
An Angel's come to ask me why  
And it takes nothing to say  
To feel alive, I'll give it all away  
I'd give it all away  
I'd give it all away
