Ben Kenney, The Ether

it broke my heart for me
to find out what i've done
it took a lot for me
to see how far you've come
and i don't want to play the villain
in this story anymore
with the way the light is hitting me
that's all i'm good for
cause i was bending
through the ether and it
seemed like someone else's life
got caught up in the moment
when you know
that nothing else is right
and now i'll walk away
i've had some room to breathe
and time to understand
i can't hold you fragile heart
when i have clumsy hands
if the lesson doesn't sting enough
i might have lost a friend
and it's a terrifying thought
i'll never be this close again
could it be that i'm alone
living in a place
that's not my home
i could meet you halfway
