

Ben Kenney, The Moment

hold up, stay a while
you've given certain things
to let them go
hold up, wait a while
cause the world won't end
by saying i don't know
she said
am i really gonna live forever
is there any way to knkow
is there anything that lasts forever
is there any way to kow
in the moment say no more
if the silence doesn't kill you
nothing will
and i don't have
what you're looking for
we're gonna have to live through
how this feels
in the moment
say no more
