

Ben Kweller, Down

I am empty and I'm tired
and I'm homesick and inspired
I can't know everything that you know
'cause I'm learning as I go
I wanna see your love

When I wake up I'm the same
'cause I sleep well when I dream away
Bluebird house on fire like an only child
I wanna see you love

When I'm in your arms
nothing can bring me down
When I'm in your arms, girl
nothing can bring me down

All the firs on the ground
are laughing with their cracking sound
I don't fight, I don't scream
I don't listen to anything
I wanna see your love

When I'm in your arms
nothing can bring me down
When I'm in your arms, girl
nothing can bring me down

I am selfish without you
I'm over and you're always new
I'll never let you down from your tower
or take away your crown

When I'm in your arms
nothing can bring me down
When I'm in your arms, girl
nothing can bring me down

Nothing can bring me down
Nothing can bring me down
