

Ben Kweller, Wake Up Whispering

Wake up whispering
But don't wake your mom and dad
Keep the morning quiet
Tip toe past the cat
Can you be sweet
And speak softly
Can you keep a secret
Promise
Hold hands whispering
You're such a good friend
Do you know the mystery
That's going on inside our heads?
Can you be still
And hold your breath
Put a mask on
Just like a tall tree
Now night time you whisper
It's such a good time for dreams
The moon and stars and everything
All planning there skins
