

Ben Lee, Birds And Bees

I get the feelin' everyones feelin' the same
Like somebody somewhere should be calling the name
Playing in churches or out in the club
Everyone is lookin' lookin' for love

(Chorus)
Birds & bees and songs like these
Cause we want, what we want
And it's natural baby
Birds & birds & bees & bees
Cause we want, what we want
And it's natural baby

It's not a secret, it's not a crime
I've never done this before
Well neither have I

(Yeah right)
So I blow out the candle
And i'm making a wish
Come over here babe, and give me a kiss

(Chorus)

I get the feelin' everyones feelin' the same
You leanin' closer and you whisper my name
Your whispering, your whispering
Life is but a dream
And you, are so beautiful
You make me wanna scream

(Chorus)
