

Ben Lee, Close I

I slipped into a house, to escape my enemies
and opened the door to another world
of lovers and whores, but i loved you more
and any of them, and ever before

look how close ive come how close ive come (5x) I'm far away

The universe is brought back, from the break of destruction
everytme you smile, but I can see things clearer all smoke in mirrors
yeah you broke my f**kin heart but i still want you

look how close ive come how close ive come (5x) I'm far away
look how close ive come I'm far away

one can only guess what would happen if I got all my questions answered
then we'd know for sure whos got the quickest drawer
whos laying dead and whos above the law

look how close ive come how close ive come (5x) I'm far away
look how close ive come I'm far away
