

Ben Lee, Don't Leave

Would you resent me
If I said that I'd miss you
And would you hate me
If I wanted to kiss you
And would you love me
If I was stoic
And if I told you
Would you already know it

Well I'm coping better than before
But it's still hard to watch you leave
So don't leave me please

You're like a childhood fear
You're not changing
If I gave you a present
Would you try to exchange it
If I tried to please you
Would you make me feel awkward
If I went away
Would you make me move forward

Well if you decide to go
I'll wait For a year, a month, a week
So don't leave me please

And I'm coping better than before
But it's still hard to watch you leave
So don't leave me please
