

Ben Lee, Light

You were the one that brings the weather
You were a dream I've had forever
You know exactly what I'm wishing
Your gonna love me in to submission

Feelings I had
while at your feet
those kinds of things I can't repeat
Your gonna fill the world with light.

You put the point in exclamation
You took a day to build a nation
Your gonna teach me how to live
Your gonna teach me how to give

Feeling i had
Well who could say
I could explain them anyway
Your gonna fill my world with light
Your gonna fill my world with light
