## Ben Lee, Nothing Much Happens

It's sad and spent Feel the motion again Stop and pause Then move some more

Still surprise you when it shatters But nothing matters Still surprise you when it shatters Don't you know that nothing happens But a lot goes on A lot goes on But nothing happens A lot goes on A lot goes on But nothing happens

Choose a town Find a girl to follow around Stay on track And just sit back

Still surprise you when it shatters But nothing matters Still surprise you when it shattered Don't you know that nothing happens But a lot goes on A lot goes on But nothing happens A lot goes on A lot goes on But nothing happens A lot goes on A lot goes on But nothing happens A lot goes on A lot goes on But nothing happens But a lot goes on A lot goes on But nothing happens A lot goes on A lot goes on But nothing happens A lot goes on A lot goes on But nothing happens A lot goes on A lot goes on But nothing happens
