

# Ben Lee, On & On

without a gun, id be defenseless against you.  
without a doubt id lose everything i have.  
last chance, something im trying to tell you.  
its clear youre really not my friend.

on and on while youre gone,  
on and on while youre gone.

someday, rise and realize im fine.  
so strange, now wakin up i get tired.

on and on while youre gone,  
on and on while youre gone.

anywhere you have to go,  
any risk you have to take.  
anything you need to know,  
any heart you have to break.

if you hear me, come near me,  
this is your song,  
on and on while youre gone.

8 o'clock, watch the tv.  
9 o'clock, i think im goin to hell.  
10 o'clock, whyd you leave me.  
11 o'clock im not doin so well.

anywhere you have to go,  
any risk you have to take.  
anything you need to know,  
any heart you have to break.

if you hear me, dont fear me,  
this is your song,  
on and on while youre gone,  
on and on while youre gone.
