

# Ben Lee, Side View

Shoulda seen that girl on the radio  
Made me think of the time  
I tried to rhyme  
And failed miserably that time  
On the radio  
Passed the time

Shoulda seen me trying to talk to you  
So you'd think I was cool  
But I'm not  
And I guess you found that out  
On the radio  
Passed the time

Said I'd tell you everything  
Or every but that one thing  
I tried to weasel my way out  
You shouldn't have found out that way  
I shoulda sat you down and explained  
I thought that there would be no way  
You'd find out on the radio

Shoulda seen me sink not swim  
Made me think of a rat  
That's trying to climb  
Even though it know it's doomed  
On the radio  
Passed the time

Shoulda heard me - what a fool  
Made me think of the time  
I tried to rhyme  
And failed miserably that time  
On the radio  
Passed the time

Said I'd tell you everything  
Or every but that one thing  
I tried to weasel my way out  
You shouldn't have found out that way  
I shoulda sat you down and explained  
I thought that there would be no way  
You'd find out on the radio
