

# Ben Lee, We're All In The Together

I woke up this morning this morning  
I suddenly realised  
that we're all in this together  
I started smiling  
'Cause you were smiling  
And we're all in this together  
I'm made of atoms  
and you're made of atoms  
And we're all in this together.  
And long division just doesn't matter  
because we're all in this together

I saw you walking  
In the city  
and we're all in this together  
The city's changing  
cause we are changing  
and we are all in this together  
every 12 seconds  
someone remembers  
that we're all in this together  
In the kitchen of your rent control apartment  
we're all in this together

come on baby i don't mean to rush you  
i only wanted to reach out and touch you  
I've got to start to open my heart

I know you think about jumping ship before it sinks  
but we are all in this together  
ask a scientist  
it's quantum physics  
we are all in this together  
on the subway we feel like strangers  
but we're all in this together  
yeah i love you and you love her and she loves him  
and we're all in this together

You know baby there's never been protection  
and all the history of human connection  
come on darling its alright to show me  
you dont ever need to be lonely  
once you start to open your heart

I saw you crying  
I started crying  
cause we're all in this together  
and religion is a big decision  
but we're all in this together

we are all in this together (repeated)
