Benassi Bros., Everyday I say a prayer

Play the music, play the music

You got the love I like

I got to have you now

You're my emotions

Don't leave me hangin' round

Baby please,

Why don't you understand

I only want to be your friend

You are my sweet release

I got to have you now

You are my affection

Don't leave me breakin' down

Everybody in the world should hear what I'm saying

Cause I wanna scream it to the world today

Turn me up up up up up up

Turn me down

Turn me down

Turn me down

Turn me down

Play the music, play the music

Play the music, play the music

You are the man for me

I got to have you now

You got the power

Don't leave me on the ground.

Touch me babe,

You really turn me on

No no don't leave me on my own!

You are my one desire

I got to have you now,

I need your action,

I'm gonna say it loud,

Everybody in the world should hear what I'm saying

'cause I wanna scream it to the world today

Turn me up up up up up up

Turn me down

Turn me down

Turn me down

Turn me down
