

Benassi Bros., Light

I am sitting in the sun
I can feel the power
Of a new dawn in my mind
Everything is bright
Love is all and love is round
Like a precious flower
Im a spirit floating down
In the universe
Light
Shining in your eyes
Everyday
Wash away the pain
Light
Coming from my mind
We are one
Life has just begun
People walking through my world
I can see are brothers
They are faces they are worlds
Of a simple birth
Put your guns down on the ground
Dont you hurt each other
Let your spirit heal the sun
In the universe
Light is just a misconception
Light is just a color
Light it is you
Because light is just a concept
Light is but a color
Light is you
