

Benassi Bros., Memory Of Love

I play the game, I pretend to be insane
D'you feel my way of livin'
People surround you, I keep lost and found you
It's hard (to) take back this memory of love

Memory of love
Tonight you will be my memory of love

You are my notion, my only one devotion
Can't stop my mind from dreaming
You're my projection, my only satisfaction
Tonight you will be my memory of love

Memory of love
Tonight you will be my memory of love

An illusion is all we built together
I'm lonely, I learned to live without you
'Cause my passion, makes me feel alive
Because the future arise and it burns

The memory of you and I
The memory of you and I
The memory of you and I
The memory of you and I
