Bender, Isolate

Shades of night
frame the time
sister, brother
cut to code
all alone
built up, level

Lost your way
back and they
cut off
my friends
ocean wide
all went dry
reflection
lethal

Chorus

And if you ever have to leave
leave yourself out side the door
and if you ever have to leave this
perfect world, lord.

Held upright
hands are tied
motion sickness
breathing quiet
all the time
sister, brother

Chorus (X2)

Bridge

Its my life
Its my life
Its my life
I do what I want
Its my life

Chorus
