

# Bender, Superfly

Envious hates me more and more  
Emerald eyes peak through open sores  
Steal my brain and pick my wings apart  
Blow my mind your life's a waste

You're not superfly  
You're not superfly  
You're not superfly  
You're not super

Self conceit last one to defeat  
Build me up vultures peck your feet  
Steal my brain and pick my wings apart  
Angry soul your life's a waste

You're not superfly  
You're not superfly  
You're not superfly  
You're not super

Alone I am  
Alone I am  
Alone I am  
Alone

One nine eight four that's where you still are  
Your fucking wig was never shit  
That still born jam was not my fault  
Down you brought you down we brought you down

You're not superfly  
You're not superfly  
You're not superfly  
You're not super
