

BENEE, Marry Myself

We've been out all night in ur fast car
Yeah the moons full Lights up the roads path
turn the music up Roll in, car pulls up
You've set this up for us Yeah this is all for us
Sitting under pear tree
A coyote is staring at me
Seems like a scene from a movie Seems like a scene from a movie

I turn around and to my suprise Ur on one knee
Beady eyes
What are u doing No for real
What are u doing
Pre/chorus:
Put the ring down
I wanna marry myself

Give that ring to somebody else
I wanna marry maself
What is this even about
I wanna marry myself
I wanna marry myself
Give that ring to someone else

So I run away from u
Cause I don't wanna do this now
Never made it seem like I'd want to Never held my hand out

I turn around and to my suprise Ur on one knee
Beady eyes
What are u doing
For real
What are u doing there
chorus:
Put the ring down
I wanna marry myself

Give that ring to somebody else I wanna marry myself
What is this even about
I wanna marry myself
I wanna marry myself
Give that ring to someone else
Ooooh Ooooh Ooooooh Uhhhhh
Oooooooooaaaaah Oooooaaaaah

Put the ring down
I wanna marry myself
Give that ring to somebody else I wanna marry myself
What is this even about I wanna marry myself Ew put the ring down
I wanna marry myself
