

Benita, Dopamine (faet. NBDY)

Come take a trip to outer space
Get your dopamine
Where you wanna stay
Is right here
Its open all night for you
It's a divine feeling
Ima show you the secret
You gonna lose it baby

Kaleidoscope of fantasies
Feel like you on ecstasy
Feel like you'll want all of me
But coming down you gon' feel the breeze
Don't fall
Messing with poison
And you can't get enough
Ohh

This is the part where
Emotions elevated
Let me get you meditated
Taste it then it kicks in
Face it, it's amazing
Ohh
Take the pleasure with the pain
Dopamine

Eyes rolling up to the ceiling
Make you overdose
Shakin like damn you really need it
Got you feenin
Make you wanna come right back
You got me caught in your grasp

Visions
Looking at me like I'm an illusion
Yeah yeah yeah
If you want the drugs
Slip me right under your tongue
Feel the effects of my love

Exploding
Flowing through your veins
