

Benny Benassi, Spaceship (feat. Kelis, Jean Baptiste)

Trip on spaceship
Trip on spaceship
Trip on spaceship
Trip on spaceship
Sitting on top of the world
Watching the stars... go by
I got my head in a dream
Got my head in the clouds
I can fly
I can fly
I can fly
So get high, get high
Get high, get high
So get high, get high
Get high, get high
Sitting on top of the world
Watching the stars... go by
I got my head in a dream
Got my head in the clouds
I can fly
I can fly
I can fly
So get high, get high
Get high, get high
So get high, get high
Get high, get high
Yeah
You'd better move, check out the baseline groove
Take control of your body soul
Let the rhythm just take control
Watch the beat drop set explode
Take the logic overload
Take the music around a globe
Take control of your body soul, soul, soul
Let's go
Trip on spaceship, take off
Trip on spaceship, go on
Trip on spaceship, take off
Trip on spaceship, get on
Sitting on top of the world
Watching the stars... go by
I got my head in a dream
Got my head in the clouds
I can fly
I can fly
I can fly
So get high, get high
Get high, get high
So get high, get high
Get high, get high
Sitting on top of the world
Watching the stars... go by
I got my head in a dream
Got my head in the clouds
I can fly
I can fly
I can fly
So get high, come on, get high, come on
Get high, get high
So get high, get high
Get high, get high
Trip on spaceship, take off
Trip on spaceship, go on
Trip on spaceship, take off

Trip on spaceship, get on
Trip on spaceship
