

# Benny Benassi & Vassy, Even if

Even if the ocean disappeared  
Even if the clouds would shed no tears  
I've had everything I need right here  
As long as you're next to me!

And even if the stars forgot to shine  
Even if the Moon escaped the sky  
And even if I search until I'm blind,  
I'll find a way to you  
And even if the world forgot to turn  
Even if the Sun refused to burn  
And even if it takes me 'round the Earth,  
I'll find a way to you

And even if the stars forgot to shine  
Even if the Moon escaped the sky  
And even if I search until I'm blind,  
I'll find a way to you

Even if the seasons turn to black  
Even if the ground will begins to crack  
Nothing in this world will hold me back  
Until you are next to me  
Even if the ocean disappeared,  
Even if the clouds would shed no tears  
I's still had everything I need right here  
As long as you're next to me!

And even if the stars forgot to shine  
Even if the Moon escaped the sky  
And even if I search until I'm blind,  
I'll find a way to you  
And even if the world forgot to turn  
Even if the Sun refused to burn  
And even if it takes me 'round the Earth,  
I'll find a way to you /6x

And even if the stars forgot to shine  
Even if the Moon escaped the sky  
And even if I search until I'm blind,  
I'll find a way to you
