YOU TOOK THE WORDS RIGHT OUT OF MY HEART

Benny Goodman

You took the words right out of my heart

And it was like a bolt from the blue

You took the words right out of my heart

When you said I love you.

When you said I love you

I stood in a daze for a while

For I felt that way too

The moment I saw you smile

I had the words and you in my heart

There wasn't room for the two

You took the words right out of my heart

And left only room for you
