

Benson Boone, Love of Mine

Oh my love where have you been?
I'm lost at sea
Going against the wind
Without you
Drifting about the blue
I'm just bones covered in skin
No heartbeat only this pain I'm in

I hurt you
But darling you hurt me too
When I'm old and getting tired
I'll get stoned and I'll get high
To try and remember what you're like
What I'd do for one more night
Take me back and let me cry
So you can hold me one more time
I know I'll never find
This love of mine
Oh my love
Where have I gone
I've spent my days
Barely just scraping along
Used to be
Ready for anything
And now I sleep
Hoping you're in my dreams
When I'm old and getting tired
I'll get stoned and I'll get high
To try and remember what you're like
What I'd do for one more night
Take me back and let me cry
So you can hold me one more time
I know I'll never find
This love of mine
Oh this love of mine
This love of mine
This love of mine
When I'm old and getting tired
I'll get stoned and I'll get high
To try and remember what you're like This love of mine.
