

Benya feat. Penny Nixon, Serendipity

Sometimes a moment comes along

Serendipity

It dances so fast, eludes you in passing

It dances some more for you

It calls out your name, it tells you its game

It knows you in every pore

Feels like heaven

In too deep on the water

Like raindrops

Falling down

Try to prove it now

Tell me that you'll never go away

On the rainbow

Save me

Show me you're my angel

Something tells me that you are no fool

Feels like heaven

In too deep on the water

Like raindrops

Falling down

Try to prove it now

Tell me that you'll never go away

On the rainbow

Save me

Show me you're my angel

Something tells me that you are no fool

Save me now I am freezing
