

# Beres Hammond, No Disturb Sign

(spoken) Mmm, I think I'm gonna have to call  
in sick

Yeah...hey Mr. Supervisor, I think I'm gonna  
have to call in sick na na na na...

Can't leave my woman like this...

oooh...

If there's one thing I can't stand, its leaving you  
so early in the morning.

This nine to five I have is surley getting to me  
for the third time I think I'm gonna have to call in sick

If I leave you now I'll be loosing my mind, my mind.

Chorus

Hope we never get tired, and I never  
have to go to work, no one knocking on the door  
disrespecting the no disturb sign.

No baby crying, no horn blowing  
just the whisper of our voices all day long  
na na na na baby

A man who don't sweet treat his woman  
surley wasting a lot of time,  
she might not say it but she needs  
tenderness in her life.

When I look in your eyes baby,  
I see clear as a warning sign,  
I gotta take some more time off  
and give you extra love na na na na  
hope you like it.

(chorus)

Oooh won't you come a little closer..  
thats it my orange juice,  
reach over and hold me baby, just like that  
just like that, we're gonna be making love, all  
through the day time (hope you like it baby)

(Chorus)

Whispering sweet, sweet prayers of love...

(Chorus x 2)

All day long, all day long now, all day long
