

# Berlin, Fall

Where do we go from here?  
The sun is shining  
Look into a night time sky  
A star is calling  
As seasons change  
Why are you so afraid?  
In darkness you'll see a new light

Fall -- fall in love  
Fall -- fall in love

You know I can't read your mind  
If never spoken  
Tell me if it hurts too much  
The door is open  
Colors all around  
Smile, cry, then laugh out loud  
Feel the autumn breeze come alive

Fall-fall in love  
Fall-fall in love

Where do we go from here, I'll stay by your side  
And if you choose a different path we'll say goodbye  
Open your heart, a shooting star could shine and touch you  
Feel it come alive, your star will shine again

Fall-fall in love  
Fall-fall in love

Fall-fall in love

Your star will shine again  
Fall-Fall in love  
Your star will shine again  
Your star will shine again
