

Berlin, Pictures Of You

Walking hand in hand
Touching hips and all I can
I'm reaching out to you
Watch you dress and leave my room

Oh, no
See the reasons changing for you overnight
Watch these pictures running through my head

Laughing, I'm laughing, I'm crying
You're lying to me
It's all up to you -- so what will I do?
Stay with me, lay with me, come to me
Make love with me
In pictures of you

I'm fighting for control
Grasping something I can't hold
Let me tie you down
Push and pull and turn you round
See the lovers changing for you overnight
Watch these pictures running through my head

Laughing, I'm laughing, I'm crying
You're lying to me

It's all up to you -- so what will I do?
Stay with me, lay with me, come to me
Make love with me
In pictures of you

You escape too fast
Hold on to me first and last
How your fingers roam
Just don't leave me here alone

Oh, no
See the reasons changing for me overnight
Watch these pictures running through my head

Laughing, I'm laughing, I'm crying
You're lying to me
It's all up to you -- so what will I do?
Stay with me, lay with me, come to me
Make love with me
In pictures of you

You say you love me -- In pictures of you
You say you love me -- In pictures of you
You say you love me -- In pictures of you
You say you love me -- In pictures of you
