

Bernadette Peters, I Make Him Feel Good

I got big red lips
I got big brown eyes
If i treat him right,
its a big suprise
i never do anything that i said i would,
i make him feel good
i make him feel good

he says come here baby i say no
he says drop me here i say

i make him feel good
i make him feel good

when angels look down from above
they see all of our special love
i make him do things that no one could

i make him feel good
i make him feel good

if ur feeling down and blue
and ur girlfriend treats you bad too

just remember what shes bound to do,
she'll make you feel good,
she'll make you feel good
i got big red lips i got big brown eyes
if i treat him right, its a big surprise
i never do anything that i said i would

i make him feel good
i make him feel good
(humming)
i make him feel good
if your feeling down and blue
just remember what shes bound to do
she'll make you feel good
feel good
