## Beth Hart, Crashing Down

Crashing Down

[Beth Hart / Jon Nichols]

Hell is on to me
This desert wants a She
Black fire becomes the road
Diving down the dark
Gold inside my hear
Black fire begins to blow

## [Chorus:]

I'm crashing down There's no one for miles around Crashing down On the road, on the road On the quiet side of the road

I begin to run
Begging for someone
Bring mercy for my soul
Too damn tired to breath
I'm too damn scared to scream
My will begins to slow

[Chorus: Repeat]

Guess that I just don't know better Or I'd change my ways I'd change everything But we all can't live forever So I'll take my fate And swallow whole

I can hear his heels The scratching of his tail He's coming for my gold On his chest it reads Liars, tramps and thieves And my name is Big and Bold

[Chorus]
