

# Beth Hart, G.O.P.

silver blue hair & a cane in her hand  
living to die in the promised land  
handing out flyers for the coming of Christ  
she says raise from the fire for eternal life  
or they'll  
take your mind & they'll strip your faith  
& they'll starve you with nothin' that you already ate  
& they'll compliment just to break you down  
Spin you in circles runnin' round & round  
Good Ole People live  
Good Ole People  
coke bottle glasses & a smile on his face  
He stands on the corner screamin' don't mix the race  
commanding all the children to confess all their sins  
then he beats his wife with a bottle of Gin  
& they'll  
whip your mind just to strip your faith  
counterfeit people comin' to dominate  
& they'll get you high just to greet you down  
Spin you in circles movin' round & round  
Good Ole People live  
Good Ole People give  
But Good Ole People can't drive  
& maybe that's why Good Ole People die
