## Beth Orton, Is This I Am I Find

I'm that great divide
That never was at all
That's neither large nor heavy
That's neither light or small
There always was and will be
Forever and through all time

Cause here and there and nowhere always is It's this I am I find It's this I am I find It's this I am I find

When all is one another Yes one is all mine

Serenely flowing ever Beyond the tide

The flower blows away Cause I am but one too Unless I pray and break up Really, not at all

A dream smiles at me I've been here all the time I've been here all the time

It's this I am I find
