

# Better Than Ezra, Hung The Moon

They say you're off (a bit confused)

But when the day is done

I'll be with you

I like your eyes

They say you're true

The others whisper and lie

And you framed the sun

Shot out the stars

You paled the sky

And hung the moon

They say "your loss"

That your mind's diseased

But when you finally won,

Tell me who always believed

[Chorus:]

Down way low

They never remember

Down way low

Down way low

You always remember

Don't let the words you hear leave your head.

They say you're gone

That you left today

But if you change your mind

Know I still feel the same way

[Chorus:]
