Beverley Knight, Ambition

In my life I have but one obsession It consumes my thought both night and day It shows in everything I've done The will to be a number one That's just how I pray I've gotta run..

Faster than the lead
Just can't stop, can't go slow
I've gotta drive beyond full speed
Just can't stop still I know
No matter what you desire, how much you pursue
Well, it all comes to you

Mama says I gotta learn a lesson

From those who crash and burn and fade away She tells me there's a higher hand Presiding on a master plan So what's in store who can say? So I try to run

[chorus]

Possibility are infinite I'm not the kind to wait Maybe all the things you really need To choose What my mama said But I've gotta run...
