

# Beverley Knight, Made It Back (Good Times 7" M

Written By Knight/Drakes/Shorten/Noble

From a place that had no meaning  
From the wilderness of time  
To the land of new beginning  
Starting with a new design  
Never doubted for a second  
That I'd do it on my own  
And I held onto my corner  
Trusted in the things I know

You will never feel  
How good it is to love me  
Rather than control me  
I don't need the world weighing down my shoulders  
But that's all over here I am

I made it back  
From a place called nowhere  
I made it back  
To do this once again  
I made it back  
From a place called nowhere  
I made it back  
Once again I made it back

Got a chance to fix up neatly  
Set it off and not too late  
Saw the light and walked towards it  
I'm the master of my fate  
Coming up just wasn't easy  
It took all the strength I had  
Now I'm ready for the action  
Mamma got a brand nu bag

You will never feel  
How good it is to love me  
Rather than control me  
I don't need the world weighing down my shoulders  
But that's all over here I am

Chorus (x2)

Flava, flava, flava  
Brand new flava, flava flava
