

Beyblade, Rise Above the Storm

Get the energy up, spread it all around.
Everybodys gonna get it--going through it right now.
Get the energy up, spread it all around.
Everybodys gonna get it--going through it right now.
If your patient,
Everything will be okay.
If your persistent,
Troubles will seem far away.
Perseverance is the key
To everything you achieve.
Seek out the truth,
Don't forget about what you believe.
Rise above the storm,
You can find what you,
Have been looking for
Planet of the clouds,
You can be the one,
To shout it out loud.
Get the energy up, spread it all around.
Everybodys gonna get it--going through it right now.
Get the energy up, spread it all around
Everybodys gonna get it--going through it right now.
Go the Distance,
Stay the counts and you can't lose.
Your decision, no one else can make you choose.
Live it out,
The energy will carry you.
It's time to get it--
Go and let it break right through...
Rise above the storm,
You can find what you,
Will be looking for
Planet of the clouds,
You can be the one,
To shout it out loud.
Get the energy up, spread it all around.
Everybodys gonna get it--going through it right now.
Get the energy up, spread it all around
Everybodys gonna get it--going through it right now.
Get the energy up,
Get the energy up,
Get the energy up--
Spread it all around
Rise above the storm,
You can find what you,
Will be looking for
Planet of the clouds
You can be the one
To shout it out loud
