I know my enemies prey on me
So pray for me
Tick tick wait on it
I am keeping down my count
I am finessing like a trap bounce
Trap bounce
Case everyday above ground is a blessing
I done leveled up
Now my view panoramic
None of my fears can go where i am headed
Had to cut tchem loose
Now i am loose break the levee
I am about to flood on tchem
Flood on a sinner
The rain and thunder gon' pour
Go mutombo, no no sinner
You can't dim me light center

Cause when we walk up in the club
I need tchem sirens going off
Then we can look up in the sky
The tears we cry let us know
That we're alive
It give me goosebumps evr time
I throw up my diamonds
Together we big timing
Don't make me have to remind you

I got my cup ipto the heavens
Another night i won't remember
Promise this my mood for ever
Promise this my mood for ever, ever
for ever and ever
for ever and ever
