

Bic Runga, If I Had You

If I had you
What in the world could be better
A crazy love that waits for you
Why must it wait forever

If I had you
Key to a hidden treasure
A ruby heart that hides from you
Don't hide for long

'Cos in the warm, warm night
Does nothing stir your cold, cold heart
There's not a thing that I couldn't do to belong

Oh, oh, oh darling, in the night
I ask the good Lord in Heaven
Please show me what love can do
I couldn't care for more

If I had you
What in the world could be better
A crazy love that waits for you
Why must it wait forever

If I had you
To be ever so close together
One safe love to shelter you
And tender loving arms

'Cause in the warm, warm night
Does nothing stir your cold, cold heart
There's not a thing that I couldn't do to belong

Oh, oh, oh darling, in the night
I ask the good Lord in Heaven
Please show me what love can do
I couldn't care for more
All what love can do
I couldn't care for more
All that love can do
I couldn't care for more
