

Bic Runga, Take It Out Sometimes

Wide, wider than the cut that's through my pride
That I'm locked inside a box
and I will hide under my bed
so I can take it out sometimes
Be, all I want to be
but do I see that I'm only half a person
All I need is a good night's sleep
you know, I stay awake sometimes

Say, what you're trying to say
are you afraid that I'm not listening anyway
so do you wait till you can get it out straight
do you think of me sometimes?
is it more than just sometimes when I'm down?

So do you wait till you can get it out straight
Do you know all these things I've got to say

Do you think of me sometimes?
Is it more than just sometimes when I'm down?
