

Bic Runga, When I See You Smile

When I see you smile
It feels like I'm falling
It's not for anybody else to know
The way your face could light the bitter dark of every street
In every town I'll ever go
It's not for anybody else to know
For anybody else to know

When I see you smile
First thing in the morning
It raises curtains on your lazy eyes
Could it be that you and I have the greatest love to ever be
How could this have ever been before?
It's not for anybody else to know
For anybody else to know

When Friday night arrives
We'll let it pass outside the door
This is not for anybody else
Anybody else to know

Get some Sleep

From here to there to everywhere
And back to Union Square
Where do I get some sleep?
Anywhere the sleep dust lies
It decorates your eyes
Where do I get some sleep?

Stranded in June
Whistling the same old tune
But I do believe I might be having fun
I believe I might be having fun
Impeccably dressed in your second hand vest
We were waiting for the taxi to come

Putting on my daytime eyes
A good enough disguise
Until I get some sleep
Reading out the horoscopes
And using up our jokes
When do we get to sleep?

Stand on the moon
Find the light of my living room
Yes I do believe I might be having fun
I believe I might be having fun
Tune into the station
Make a dedication
This is going out to everyone

This is going out to everyone
This is going out to everyone
Something in the phrasing was quietly amazing
We were waiting for the chorus to come
This is going out to everyone
This is going out to everyone

From here to there to everywhere
And back to union square
Where do I get some sleep?
Anywhere the sleep dust lies
It decorates your eyes

When do I get some sleep?

Stranded in June
Whistling the same old tune
Yes I do believe I might be having fun
I believe I might be having fun
Tune into the station
Make a dedication
This is going out to everyone
This is going out to everyone
This is going out to everyone
This is going out to everyone
Going out to everyone
This is going out to everyone
