Biffy Clyro, Go-Slow

Remember when, the insects fed off all our moments Can't deny, the structure's failed us and the go-slow Love her then but killer now, catch me I'm falling down Love her then but killer now

Decrease the movement, would you switch transition, switch transition Decrease the movement, love me 'til I die, I don't expect more

Remember the time, we lost ourselves to being lonely

Without love, we sing and dance and kill together Love her then but kill her now, catch me I'm falling down Love her then but kill her now

Decrease the movement, would you switch transition, switch transition Decrease the movement, love me 'til I die, I don't expect more Catch me I'm falling down, catch me I'm falling down...
