

Biffy Clyro, Kids From Kibble And The Fist Of Light

Say! Nothings better
You say nothings better
Say! Nothings better than the rest
Say! Hope youre better than the rest cause you talk a good game

Your sensations are suffering
Ill make your sensations suffer

Through these long sadistic highs
When you say the way I collide with you
I hope you see straight

Tonight, Im in a rage
Tonight, Im in a rage

Say! Nothings better than the rest cause you talk a good game

My sensations are suffering
My sensations are suffering
Through these long sadistic nights
Did you see the way I
Collide, with you
I hope you see straight

Tonight, Im in a rage
Tonight, Im in a rage

Once again
Youve missed the point

These strange explosions hit me
Like a fist of light
These strange explosions hit me
Like a fist of light
These strange explosions hit me
Like a fist of light
These strange explosions hit me
Like a fist of light

These strange explosions hit me
(Do you believe that I care?)
Like a fist of light
These strange explosions hit me
(Do you believe that I care?)
Like a fist of light
These strange explosions hit me
(Do you believe that I care?)
Like a fist of light
These strange explosions hit me
