

# Biffy Clyro, Kids From Kibble And The Fist Of Light

Say! Nothings better  
You say nothings better  
Say! Nothings better than the rest  
Say! Hope youre better than the rest cause you talk a good game

Your sensations are suffering  
Ill make your sensations suffer

Through these long sadistic highs  
When you say the way I collide with you  
I hope you see straight

Tonight, Im in a rage  
Tonight, Im in a rage

Say! Nothings better than the rest cause you talk a good game

My sensations are suffering  
My sensations are suffering  
Through these long sadistic nights  
Did you see the way I  
Collide, with you  
I hope you see straight

Tonight, Im in a rage  
Tonight, Im in a rage

Once again  
Youve missed the point

These strange explosions hit me  
Like a fist of light  
These strange explosions hit me  
Like a fist of light  
These strange explosions hit me  
Like a fist of light  
These strange explosions hit me  
Like a fist of light

These strange explosions hit me  
(Do you believe that I care?)  
Like a fist of light  
These strange explosions hit me  
(Do you believe that I care?)  
Like a fist of light  
These strange explosions hit me  
(Do you believe that I care?)  
Like a fist of light  
These strange explosions hit me
