

Big Bang, Always (English Version)

That first time we layed eyes
Lookin over and over again
(Talkin no matter how late and laughin away and away)
Was so on a natural high, felt like you always been my best friend
(So happy everyday and - nothin can tear us away)
You always had a glow, on your face so, you had to be mine yeah yeah yeah
Everyplace we go, holding hands yo, I knew you were mine
Thats why you gotta know girl

Always you should know youre my honey
Always you are on my mind
Always you can call on me any o day or night oh yeah
No way Id be shady or frontin
No way that aint even my style
What Im sayin is always and forever be you and I

For the first time in my life
Feelin all the love deep within
(Aint never felt so amazin - hits me in so many ways)
For sure I, would never get by, I need you by my side thick n thin yeah
(You lovin me is like heaven - dont wanna let you go never)
You always had a glow, on your face so, you had to be mine yeah yeah yeah
Everyplace wed go, holding hands yo, I knew you were mine
Thats why you gotta know always girl yeah

Always you should know youre my honey
Always you are on my mind
Always you can call on me any o day or night oh yeah
